Clean Energy for EU Islands

EU Climate Pact

OUR MISSION

INFORM

Update members on EU policies and promote their activities at EU level

INFLUENCE

Advise and lobby EU representatives on FEDARENE's position

INTERACT

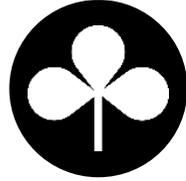

Facilitate exchanges and collaboration through EU projects, events and other services

FOCUS AREAS

Energy Efficiency in Buildings

Renewables for Energy Security

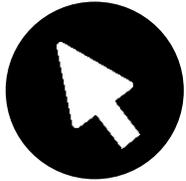

Citizen-led Energy

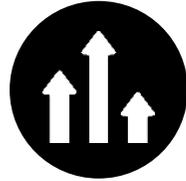

Climate Adaptation

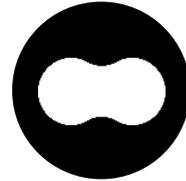

Financing the Transition

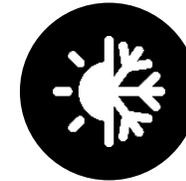

AI, Digitalisation & Data

Competitive Decarbonisation

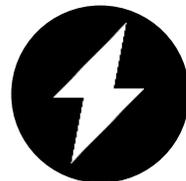

Grid Capacity & Flexibility

Heating and Cooling

Sustainable Islands

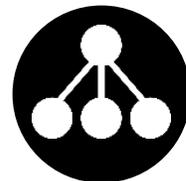

Energy Sufficiency

Circular Economy

Sustainable Mobility

Integrated Planning

Projects

RENOSS

National One-Stop Shops Network

Description:

Promoted by MASE and coordinated by RENAEL, is the **first formal national network of One-Stop Shops**, it aims to support the development of Renewable Energy Communities (RECs). In future it will also support building renovation programmes.

Approach: Regional/Provincial One-Stop Shops, in person and virtual

Main activities:

- Facilitate access to information
- Offer free support for RECs set up, national incentives schemes application, matchmaking between producers and newly created RECs

EPBD contribution: art.18, "1 OSS per region"

Project duration: 2025 - 2027

ONE-STOP SHOP SERVICES

Digital services

- **Online platform** to help citizens, SMEs, ETs, and public administrations find information and guidance on RECs pathways, facilitate access to both physical and virtual OSSs, and coordinate them.

Physical touchpoints

- Network Energy Agencies and their respective OSS
- In person technical assistance during energy related expos

Events

- Dedicated webinars for aggregators like the chamber of commerce and building manager association
- Live events for citizens to promote the REC concept
